2. (Secret - JSW) George Murphy, Joint Committee on Atomic Energy, telephoned stating that Senator Anderson after being made aware of the Director's schedule was requesting the Agency to do the usual briefing on the morning of 6 July at which time the Director would be back in town. I advised Murphy to regard this as tentative and I will let him know further. (A cable has been dispatched to the DGI requesting his approval.)

3. (Secret - JGO) Handcarried a letter addressed to Honorable Thomas E. Morgan as Chairman of the House Foreign Affairs Committee, in answer to a question raised by Representative Wayne L. Mays on the occasion of the Director's appearance before that Committee on 1 June 1960. Information was desired as to whether the camera and lenses used by the U-2 were made abroad. The lenses were purchased on the open market in Germany and the camera was made in this country.

4. (Unclassified - JGO) Handcarried a letter addressed to Honorable J. W. Fulbright, as chairman of the Senate Foreign Relations Committee, in answer to a question raised by Bourke B. Hickenlooper on the occasion of the Director's appearance before that Committee on 31 May 1960. Senator Hickenlooper had requested information concerning the right of the Soviets to innocent passage by air through the Bosphorus. This right is granted by the Convention of Montreux of 20 July 1936.
